- Modern Innovation
- Printability
- High Performance
- Wearability

PRO-LOCK

Pro-Lock is a snag-resistant, moisture-wicking, 100% polyester interlock jersey, cationic disperse dyed performance fabrication. Pro-Lock fabric locks in colorfastness to create a bleed-resistant print surface that produces vibrant, crisp graphics. This collection also offers UPF 50 protection, ensuring added defense against harmful UV rays.

PRO-FLEX

Pro-Flex is made with 60% polyester pin-dot mesh for enhanced ventilation and 40% Sorona® (partially plant-based polymer fabric). Pro-Flex is an eco-efficient blended performance fabric that maintains a high level of stretch and recovery, has an amazing hand feel, is more durable, dries faster than Spandex, and leaves a smaller environmental footprint.

48000L in Heather Steel

MADE FOR DECORATION

Pro-Lock is crafted from 100% cationic polyester, which absorbs vibrant colors without fading or bleeding due to its anionic treatment that attracts positively charged dye molecules. This process enhances color fastness and dye penetration for longer-lasting, vivid designs.

HERE'S HOW IT BENEFITS DECORATORS:

No Blocker Needed: When printing on darker or difficult colors like greys, reds, or heathers, decorators typically need a blocker to prevent fabric color from showing through the print. With AllPro's pre-treated Pro-Lock fabric, the blocker becomes unnecessary, saving time and material costs.

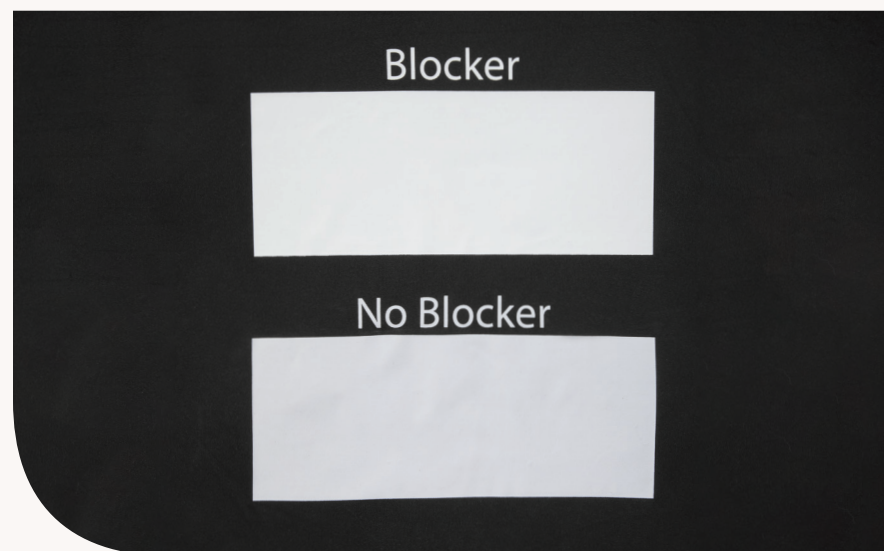

Wide Compatibility with Heat Settings: Pro-Lock's dyeing process supports a broad range of heat settings, ensuring flexibility for various printing techniques.

Prevents Dye Migration: Pro-Lock's technology locks in the dye color, preventing it from bleeding into the print and ensuring logos remain crisp and clear.

NO BLOCKER NEEDED

By using AllPro's Pro-Lock, decorators can achieve higher efficiency and superior print quality while cutting down on additional materials and labor.

PRO-LOCK T-SHIRT COLLECTION

IT'S IN THE DETAILS

All the styles in this collection feature a slightly rolled forward shoulder, offering a more tailored, flattering fit that enhances comfort and allows for greater freedom of movement.

Each style features extra stitching around the collar, providing enhanced durability and a refined finish that helps maintain the shape and structure over time. Additionally, this collection is designed with UPF protection, helping to shield you from the sun's UV rays.

MADE WITH BRANDING IN MIND

AllPro's collection is designed with branding versatility in mind, offering a broad spectrum of colors that go beyond the traditional primary hues. As more companies seek unique, non-primary colors to establish distinct brand identities, AllPro delivers a diverse selection of shades and tones to meet this demand. From bold, vibrant colors to subtle, muted options, this collection empowers brands to find the ideal color that truly reflects their identity. The Pro-Lock and Cotton/Pique lines both feature tear away labels, adding to the collection's adaptability for custom branding.

PRO-FLEX SORONA® STRETCH POLO

- 4.5 oz., 60/40 polyester/Sorona® with Pro-Flex technology
- Pin-dot mesh enhances ventilation
- High stretch and recovery, with an exceptional hand feel
- Fade-resistant and significantly reduces environmental impact
- Standard fit
- Wrinkle-resistant
- Self-fabric collar with collar stand
- Rolled forward shoulder
- Three grey buttons
- Soft woven label

XS-4XL | \$21.98

This polo is crafted from a pin-dot mesh fabric that maintains its stretch and offers a sleek matte finish. It also features a unique floating placket design and a collar stand for a sleeker look.

PRO-FLEX SORONA®: SUSTAINABLE STRETCH WITH LASTING PERFORMANCE

The AllPro Pro-Flex Polo is a standout piece that seamlessly blends performance with sustainability, thanks to its innovative Sorona® Agile fabric. Composed of 40% Sorona® and 60% polyester pin-dot mesh, this material stretches, bends, and comes back for more, offering exceptional breathability and lasting shape retention. Sorona's unique molecular structure enhances durability and recovery, making it a superior alternative to traditional spandex and nylon. Colorfast and designed for easy printability, this one-of-a-kind fabrication stays true to its vibrant style and delivers long-lasting designs. For eco-conscious consumers who demand both quality and style, the Pro-Flex Polo is a perfect fit.

PRINTABILITY MADE EASY:

Heat-Applied Graphics preserve Pro-Flex's natural stretch and flexibility during the design transfer.

Screen Printing with low cure ink protects the Sorona® component and maintains the fabric's bounce back properties.

Embroidery adds a premium look while using stretchable performance woven backing to prevent puckering and retain flexibility.

QUARTER-ZIPS

UNMATCHED PERFORMANCE IN HEATHER MÉLANGE

AllPro's Heather Mélange collection combines performance and style with its 100% polyester interlock jersey construction, offering moisture-wicking protection, snag resistance, and vibrant colors that won't fade. Crafted with a unique cationic disperse dye process, it achieves a more even and tonal look without the added price of a traditional heather yarn. This innovative material is featured across three styles—4HM00, 4HM00L, and 4HM700—each designed with enhanced ventilation from its slight pin-dot mesh construction, ensuring long-lasting durability and comfort.

62800 in White, 62800L in Coral, and 62800Y in Greystone
